

SEVENTH
ANNUAL REPORT

OF THE

REGISTRAR-GENERAL

OF

MARRIAGES, BIRTHS, AND DEATHS
IN IRELAND.

1870.

Presented to both Houses of Parliament by Command of Her Majesty.

DUBLIN:
PRINTED BY ALEXANDER THOM, 87 & 88, ABBEY-STREET,
FOR HER MAJESTY'S STATIONERY OFFICE.

1873.

[C.—785.] *Price 9d.*

CONTENTS.

REPORT:—

	Page
POPULATION, MARRIAGES, BIRTHS, DEATHS, and EMIGRATION, in 1870,	5
Marriages—their Number and Proportion to the Population,	5
Minors, Widowers and Widows, and Signatures to Marriage Registers,	5
Ages of Persons Married,	6
Proportional Number (1) of Marriages, (2) of Persons Married who wrote their Names in the Registers, (3) of Persons not of Full Age, and (4) of Re-marriages, in each Registration Division in 1864, 1865, 1866, 1867, 1868, 1869, and 1870 (Table I.), . .	7
Marriages (1) of Roman Catholics, (2) of Protestants, and the total Number registered in each Quarter of the Year,	8
Marriages of Protestants from 1845 to 1870, celebrated according and not according to the Rites of the Established Church (Table II.),	8
Buildings registered for the Solemnization of Protestant Marriages (Table III.),	9
Marriages by Registrars' Licences, and by Presbyterian Ministers' Licence,	11
Births registered in 1870,	11
Deaths registered in 1870,	12
Emigration from each Province during the year 1870,	13
Meteorological Observations,	13
Remarks on the progress of Registration,	14

SUMMARY OF THE QUARTERLY REPORTS, 1870:

First Quarter, ending March 31st,	16
Second Quarter, ending June 30th,	19
Third Quarter, ending September 30th,	23
Fourth Quarter, ending December 31st,	27
Topographical Description of the Eight Registration Divisions of Ireland,	32
Estimated Population of Ireland from 1801 to 1870,	34

ABSTRACTS:—

Marriages registered in Ireland in each of the Divisions and Superintendent Registrars' Districts, also in each Province and County, in 1870, distinguishing Roman Catholic from Protestant Marriages, and giving the Total Number registered in each Quarter of the Year; the Conjugal Condition of Persons Married; the Number of Minors, and of those who signed the Registers by Marks,	36-45
Ages of 26,667 Persons married in 1870, distinguishing those of Bachelors, Spinsters, Widowers, and Widows,	46, 47
Marriages, Births, and Deaths registered in each of the Divisions and Superintendent Registrars' Districts, and in each Province and County in 1870; also Births and Deaths, and Excess of Births over Deaths in each of the Registrars' Districts of Ireland, distinguishing the Sexes and Illegitimate Births throughout,	48-72

	Page
Births registered in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties (distinguishing Males and Females) in each of the Four Quarters of 1870,	74-83
Deaths registered in each of the Four Quarters of 1870 (distinguishing Males and Females), in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,	84-93
Deaths of Males and Females at different Ages registered in 1870, in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,	94-101
Causes of Death of Males and Females in Ireland, at different periods of life, in 1870,	102-109
Supplementary Table of Causes of Death of Males and Females, at different periods of life, in 1870,	110-113
Causes of Death of Males and Females in Ireland, and in each of the Divisions, in 1870,	114-121
Deaths from several Zymotic and other Causes in 1870, in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties,	122-125

APPENDIX.

Letter to the Registrar-General on the Causes of Death in Ireland in 1870, from WILLIAM M. BUNKE, Esq., F.C.F.I.,	129-131
Copy of Circular relating to Registration of Roman Catholic Marriages,	132

Index of Superintendent Registrars' Districts, and of Registrars' Districts,	133-136
--	---------

REPORT

TO

His Excellency JOHN POYNTZ, EARL SPENCER, K.G., &c., &c.,
Lord Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR EXCELLENCY,—

As directed by the provisions of the 26 Vic, cap. 11, sec. 49, the 26 & 27 Vic, cap. 90, sec. 16, and the 7 & 8 Vic, cap. 81, sec. 56, I have the honour to transmit to your Excellency, in order that the same may be laid before Parliament, General Abstracts of the Births, Deaths, and Marriages registered in Ireland during the year 1870.

A General Abstract of the number of Births, Deaths, and Marriages, registered in the year 1870, was presented to Parliament in the Session of 1871. The Report now submitted contains detailed Tables of the ages and condition of persons married; of Births, distinguishing legitimate from illegitimate; and of Deaths, and their causes.

The Acts for the Registration of Births and Deaths, and Roman Catholic Marriages, came into operation on the 1st of January, 1864, but that for the Registration of Protestant Marriages of all denominations has been in force since the 1st of April, 1845.

For the purposes of Registration, the country has been divided into 163 Superintendent Registrars' Districts—co-extensive with the Poor Law Unions—and into 789 Registrars' Districts, which, with a few exceptions, are of equal extent with the Dispensary Districts formed under the Medical Charities Act.

GENERAL SUMMARY.

The *estimated* population of Ireland in the middle of 1870 was 5,416,170; the persons whose marriages were registered, amounted to 57,334, the number of marriages being 28,667; children born alive whose births were registered, amounted to 149,846; and the number of deaths registered was 90,462. The emigrants from Ireland during the year 1870 amounted to 74,855. In the previous year—1869—there were *registered* 27,277 marriages, 145,659 births, and 89,593 deaths; the number of emigrants was 66,568.

MARRIAGES.

28,667 marriages were registered in Ireland during 1870, being in the proportion of 1 marriage to every 189 of the *estimated* population. The ratio in England in the same year was 1 in 124.

748 men and 3,889 women contracted marriage before they had attained their twenty-first year. The proportion of males married under age was 2·61; of females, 13·57 per cent. The proportions in England and Wales in 1870 were—males, 7·6, and females, 21·6 per cent.

Of widowers, 3,029, and of widows, 1,592 were re-married; the proportion to the total marriages being 10·57 per cent. of widowers, and 5·55 per cent. of widows. The like proportions in England and Wales were 13·6 per cent. widowers, and 9·6 per cent. widows.

According to the provisions of the Registration Acts, every registry of a marriage is required to be signed by the parties married, two witnesses, and the officiating clergyman. A test of the elementary education of the persons contracting marriage is thus afforded by comparing the

number who write their names in the registers, with the number who make a mark. Of 57,334 persons married in 1870, 23,997 (10,658 men and 13,339 women) signed the registers with marks; being in the proportion of 41·85 per cent.—37·18 per cent. of the males, and 46·53 per cent. of the females married.

The corresponding rates in England and Wales for the same year were 19·8 per cent. of males, and 27·3 per cent. of females.

The marriage registers contain a column in which the age of each of the parties married is inserted; but as the law only requires it to be stated whether the parties are "of full age" or "minors," the precise age at marriage is not always entered in the registers. In 1870 the exact ages of both parties were given in 9,985 instances. Of these 9,021 were bachelors, and 9,407 spinsters; 964 were widowers, and 488 widows. The largest number of wives married between the ages of 21 and 30—the number being 6,089, or more than one-half of the whole number whose ages are recorded. The largest number of husbands—5,898—also married between 21 and 30 years of age.

248 bachelors were married to widows, both of whose ages at the time of marriage are recorded. 132 of these widows and 135 of the bachelors married between 25 and 35 years of age. Of 724 widowers who married spinsters, 366 of the latter were between 20 and 30 years of age; whilst the largest number of the widowers on their re-marriages ranged chiefly between 35 and 45.

Of widowers and widows married, whose ages at the time of marriage are stated, there were 240 couples. Of these the largest number of widows appears to have been between 35 and 45, and of widowers between 50 and 60.

With respect to Roman Catholic Marriages, the 26 & 27 Vic. cap. 90, directs that parties about to contract marriage shall produce to the clergyman celebrating the marriage a certificate, to be procured from the Registrar, filled up as far as possible by that officer with the particulars necessary to be registered, which certificate the parties married, the witnesses, and the officiating clergyman are required to sign. When so filled up the certificate is to be returned within three days to the Registrar by the husband, under a penalty of ten pounds.

With a view to facilitate the registration of marriages under the Act referred to, and at the special request of several dignitaries of the Roman Catholic Church,—with the approval of the Law Officers of the Crown—(who at that time were the Right Hon. Thomas O'Hagan, M.P., and James A. Lawson, esq., Q.C.)—I instructed the District Registrars to furnish to each parish priest, who should apply for them, forms of certificate to be duly filled, signed, and forwarded to the Registrar on the occasion of a marriage, thus saving the husband the inconvenience of procuring from the Registrar a form of certificate *previous* to his marriage, as required by the Statute.* I also furnished all the Roman Catholic clergy in Ireland with copies of the Act above referred to, in order that the requirements of the law might be known to them previous to the Act coming into operation.

The number of marriages; proportion per cent. of persons married who wrote their names in the registers, of minors, of widowers, and of widows, are given in the following table, for the several registration divisions:—

* For copy of Circular issued on this subject see page 122.

TABLE I.—The Number of Marriages in the Eight Divisions of Ireland during the years 1864–70, and proportion per cent. of Persons who signed their Names, of Persons not of Full Age, and of Re-marriages.

No.	Registration Divisions.	Number of Marriages.	Signed their Names in Writing.		Persons not of Full Age.		Re-marriages.		
			Of 100 Men Married.	Of 100 Women Married.	Of 100 Men Married.	Of 100 Women Married.	Widowers.	Widows.	
							Of 100 Men Married.	Of 100 Women Married.

		1870	4,739	59.4	47.5	2.28	12.93	9.60	7.01

The extent and position of each of these divisions are specified at p. 32.

Of the total number of marriages (28,667) registered in 1870, 20,454 were celebrated by Roman Catholic clergymen, and entered in the register books by the Registrars in accordance with the 26th and 27th Vic. cap. 90; and 8,213 marriages were of members of the various Protestant persuasions. Of the latter marriages 4,704 were in churches and chapels of the Established Church, 2,528 in Presbyterian Meeting-houses, 235 in "Registered Buildings," 737 in the Registrars' offices, 7 according to the usages of the Society of Friends, and 2 marriages were of members of the Jewish persuasion.

Of the entire number of marriages in 1870 there were contracted in the quarter ending the last day of March, 11,958; of June, 5,247; of September, 5,421; of December, 6,041.

The following table gives a statement showing in continuation of the return in my report for 1869, the number of marriages solemnized in Ireland under the Marriages Act of 1844, distinguishing the mode of celebration:—

TABLE II.—*The Number of Marriages registered under 7 & 8 Vic. c. 81, in each Year, from 1st April, 1845, to 31st December, 1870, and the Mode in which the Marriages were solemnized.*

Years ended 31st December	Marriages.

There is not any return made to me of the places of worship belonging to Roman Catholics, in which marriages are celebrated; but under the

* The 7 & 8 Vic. c. 81, came into operation 1st April, 1845.

provisions of the 7th & 8th Vic. cap. 81, I am enabled to state respecting other religious persuasions, that there were 1,492 Churches and Chapels of the Established Church, 585 registered Presbyterian Meeting-houses, and 231 Registered Buildings belonging to various denominations, in which marriages might lawfully be solemnized, on the 31st December, 1870. During the year 1870 there was an increase of 5 in the number of such places in the Established Church; of 1 in the Presbyterian Church; and of 1 in other religious communities. The "Registered Buildings" belong to the following denominations:—

Denominations.	No. of Places of Worship.	Denominations.	No. of Places of Worship.
Wesleyan Methodists, . . .	131	Methodists New Connexion, . . .	6
Reformed Presbyterians, . . .	34	Church Methodists, . . .	1
Independents, . . .	20	Covenanters, . . .	1
Baptists, . . .	13	Evangelical Union, . . .	1
Seceders, . . .	11	United Original Seceders, . . .	1
United Presbyterians, . . .	7		
Moravians, or United Brethren, . . .	5	Total, . . .	231

The following Table shows by Divisions and Registrars' Districts the number of places of worship in which marriages (under the 7 & 8 Vic., cap. 81,) may be solemnized in each District or Union, distinguishing the religious denominations:—

During the year 1870 there were issued by the Registrars, 662 Licences for Marriage in Registered Buildings and in the Registrars' offices.

The number of Marriage Licences issued by the licensing Ministers of the several Presbyterian bodies is given in the following summary:—

Presbytery or Synod.	Number of Licensing Ministers on 31st December, 1870.	Number of Registered Meeting-houses on 31st December, 1870.	Number of Licences issued.
1. General Assembly of the Presbyterian Church in Ireland, . . .	118	545	2,445

5. Northern Presbytery of Antrim, . . .	1	5	17
Total, . . .	135	585	2,608

BIRTHS.

The births registered in Ireland during 1870, amounted to 149,846. Of these, 76,792 were males, and 73,054 females, being in the proportion of 105 boys to every 100 girls. In England, in the same year, the number of males to 100 females whose births were registered was 104.

The rate per cent. of births to the *estimated* population was 2·767, or 1 in 36 of the estimated population. In England the rate per cent. was 3·330.

There were 4,088 illegitimate births, of which 2,068 were those of males, and 2,020 females; the proportion to the total number of births being 2·7 in every 100. The rate in England was 5·6 per cent. In Ireland, the highest

rates, 5.3 and 3.2, of illegitimate children in every 100 born, occurred in the North-Eastern and South-Eastern Divisions respectively.

The following table shows the proportion of legitimate and illegitimate births registered in each of the eight Divisions in 1866, 1867, 1868, 1869, and 1870.

TABLE IV.—*The Per-centage of Legitimate and Illegitimate Births registered in Ireland during the years 1866, 1867, 1868, 1869, and 1870, by Divisions.*

Divisions.	Proportion per cent. of Legitimate Births.					Proportion per cent. of Illegitimate Births.				
	1866.	1867.	1868.	1869.	1870.	1866.	1867.	1868.	1869.	1870.

South Midland.	96.3	96.3	97.1	97.1	97.5	3.7	3.7	2.9	2.9	2.5
Western.	98.0	98.8	98.7	98.7	99.0	1.9	1.2	1.3	1.3	1.0
South-Eastern.	95.4	95.5	95.0	96.7	96.8	4.6	4.5	4.1	3.3	3.2
South-Western.	97.7	98.0	97.0	98.3	98.3	2.3	2.0	2.1	1.7	1.7

39,770 births were registered during the quarter ended 31st March; 40,987 in that ended 30th June; 34,605 during that ended 30th September; and 34,484 in that ended 31st December.

DEATHS.

The deaths registered in 1870 amounted to 90,462—45,501 males, and 44,961 females—being in the proportion of 1.670 per cent. of the estimated population, or in the ratio of 1 registered death to every 60 persons. The proportion in England for the same year was 2.295 per cent., or 1 in 44.

The following table shows the per-centage of mortality at different ages:—

TABLE V.—*The Mortality per Cent. at each Age-period, according to the Registration of Deaths in Ireland, during the years 1864-1870, by Sexes.*

Of the persons whose deaths were registered during the year 25·88 in every 100 were children under 5 years old—27·62 per cent. of the males and 24·09 per cent. of the females. 15·08 per cent. of the men, and 16·95 per cent. of the women, whose deaths were registered had passed their 75th year. 69 of the males and 93 of the females in every 10,000 were stated in the returns to have been over 95 years of age.

28,234 deaths were registered during the first quarter of the year; 23,310 during the second; 18,209 during the third; and 20,709 during the fourth quarter.

EMIGRATION.

During the year 1870 the number of emigrants who left the ports of Ireland amounted to 74,855; of these 43,884 were males and 30,971 females. Of the whole number, 17,093 were from Leinster; 15,561 from Munster; 23,030 from Ulster; and 10,330 from Connaught: 8,841 persons did not state the county or province to which they belonged.

Of the emigrants in 1870, 11·6 per cent. were under 15 years of age; 76·0 per cent. were 15 to 35 years old; 11·4 per cent. were 35 and upwards; and the ages of 1·0 per cent. were not specified in the returns.

METEOROLOGY.

The following is an abstract of the Meteorological Observations taken during the year 1870 at the Ordnance Survey Office, Phoenix Park, Dublin, furnished by Major Wilkinson, R.E., by direction of the Superintendent of the Ordnance Survey.

The barometer was highest during the year at 3.30 P.M. on 9th February, when it stood at 30·706 inches, wind E.; it was lowest on 14th December, at 3.30 P.M., wind S.W., when it registered 28·375 inches.

The highest temperature in the air was 86·9°, on 11th August, and the lowest was 11·0°, on 30th December.

Rain or snow fell on 109 days during the first eleven* months of the year. The total amount registered during this period was 19·663 inches. The greatest rain-fall in twenty-four hours was 1·300 in. on 1st September, wind S.W.

The prevailing wind was the W., from which point it blew on 88 days; it blew from S.W. on 65 days; from N.W. on 43 days; from E. on 34 days; from S.E. on 25 days; from N. on 22 days; from S. on 14 days; from N.E. on 11 days; and the air was calm on 63 days at 9.30 A.M. The total pressure of W. wind was 174·50 lbs. per square foot, giving an average of 1·98 lbs. for each day it blew. The strongest wind was from W. on 12th October, when the pressure was 25 lbs. per square foot.

* Rain gauge out of order during December.

I beg here to repeat the observations made in my former Reports to your Excellency, with respect to the working of the Acts for the Registration of Births, Deaths, and Marriages in Ireland, as I regret to state that the numbers of these events registered in 1870 do not show much improvement compared with previous years:—

"In several instances prosecutions have been resorted to with some advantage; but notwithstanding the exertions made to induce a general compliance with the law throughout the country, numerous cases of neglect to register births and deaths have been reported to me by the District Registrars, but frequently at too late a period after their occurrence to allow of the parties being proceeded against at the Petty Sessions.

* Rain gauge out of order.

"I regret to add that the registration of marriages under the 26th & 27th Vic., cap. 90, is not at all satisfactory in some Districts, owing to the Clergy who have celebrated the marriages having declined to sign the necessary certificates.

"The marriages solemnized under the provisions of the 7th & 8th Vic., cap. 81, which came into operation in 1845, are, I believe, all registered.

"The following are the ratios of Births, Deaths, and Marriages to population in different countries compared with the ratio in Ireland in 1864 [and in 1865, 1866, 1867, 1868, 1869, and 1870]:—

COUNTRIES.	RATIO TO POPULATION.		
	Births.	Deaths.	Marriages.
IRELAND (in 1864),	1 in 42	1 in 61	1 in 207
IRELAND (in 1865),	1 " 39	1 " 61	1 " 153
IRELAND (in 1866),	1 " 38	1 " 60	1 " 185
IRELAND (in 1867),	1 " 39	1 " 59	1 " 187
IRELAND (in 1868),	1 " 38	1 " 54	1 " 200
IRELAND (in 1869),	1 " 37	1 " 51	1 " 206
IRELAND (in 1870),	1 " 38	1 " 50	1 " 189
England,	1 " 28	1 " 43	1 " 110
Scotland,	1 " 28	1 " 43	1 " 137
Sweden,	1 " 30	1 " 30	1 " 145
Prussia (Old Provinces),	1 " 24	1 " 33	1 " 110
Hanover,	1 " 26	1 " 44	1 " 124
Württemberg,	1 " 28	1 " 31	1 " —
Rhine Towns: Bremen,	1 " 28	1 " 37	1 " 103
Holland,	1 " 30	1 " 42	1 " 127
France,	1 " 30	1 " 44	1 " 127
Spain,	1 " 20	1 " 32	1 " 137
Austria (exclusive of Hungary),	1 " 25	1 " 31	1 " 121

"It will be seen from the foregoing figures, compiled from the Statistical Tables published by the Board of Trade, how incomplete was Registration in Ireland in 1864, and comparing the number of Births, Deaths, and Marriages recorded in that year with those since annually registered, I regret to state that there appears but little improvement in the subsequent years:—

	1864.	1865.	1866.	1867.	1868.	1869.	1870.
Registered { Births,	126,414	144,979	146,036	144,288	146,351	145,659	149,846
Deaths,	92,144	93,164	93,027	93,690	93,165	93,536	90,462
Marriages,	27,408	30,502	30,121	29,743	27,689	27,377	28,687."

Following this Report are summaries of the Quarterly Reports issued in 1870, and the Appendix contains a letter addressed to me by Dr. Burke, the Superintendent of Medical Statistics, respecting the causes of death—to which I beg to refer.

I have the honour to be

Your Excellency's very faithful servant,

WILLIAM DONNELLY,
Registrar-General.

GENERAL REGISTER OFFICE,
CHARLEMONT HOUSE,
Dublin, 15th April, 1873.

SUMMARY OF THE QUARTERLY REPORTS, 1870.

First Quarter—January, February, March.

Quarterly
Reports.First
Quarter

Marriages.—There were 11,958 marriages registered in Ireland during the first quarter of 1870, a number affording an annual ratio of 1 in every 113, or .883 per cent. of the estimated population. The average number of marriages registered in the corresponding quarter of the years 1865-9 was 11,778.

Births.—The births registered during the first quarter of the year 1870 amounted to 39,770—20,434 boys and 19,346 girls—affording an annual ratio of 1 in every 34.0, or 2.94 per cent. of the estimated population. The average number of births registered during the corresponding quarter of the previous five years was 38,566.

Deaths.—There were 28,234 deaths—13,946 males, and 14,288 females—registered during the quarter, affording an annual ratio of 1 in 48.0, or 2.09 per cent. of the estimated population. The average number registered during the first quarter of the preceding five years was 27,719.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland, during the quarter ended 31st March, 1870, amounted to 12,723—8,331 males and 4,402 females—being 2,054 more than the number who emigrated during the corresponding quarter of 1869.

Estimated Decrease of the Population.—The number of births registered during the quarter ended 31st March, 1870, being 39,770; the deaths 28,234; and the number of emigrants 12,723 (according to the returns obtained by the enumerators at the several seaports);—a decrease of 1,187 would, therefore, appear to have taken place in the population of Ireland during that period.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf for the quarter ending 31st March, 1870, was 6d., being 1d. cheaper than it was during the corresponding period of 1869.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 14s. 3d. per cwt.; during the first quarter of 1869 it was 15s. 8d.; in the corresponding period of 1864 it was only 11s.

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 3s. 9d. to 4s. 8d. per cwt., against 3s. 5d. to 4s. 10d. in the corresponding quarter of 1869; the average prices for the first quarter of 1864 were only 2s. 6d. to 3s. 3d.

The average prices of beef at the Dublin Cattle Market during the quarter were 54s. 6d. to 66s. 6d. per cwt., against 54s. 6d. to 70s. in the corresponding period of the preceding year; for the first quarter of 1864 the average prices were 51s. 6d. to 64s. 6d.

The following statement shows the average prices of the foregoing articles of food in Dublin during the first quarter of the years 1864-70:—

Years.	BREAD (Messrs. Manders & Co.'s 4 lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.	BEEF (at Dublin Cattle Market), per cwt.
1864 (1st quarter),	s. d.	s. d.	s. d.	s. d.
1865	11 0	11 0	3 6 to 3 8	51 6 to 64 6
1866	11 9	11 9	3 1 to 3 7	54 8 to 68 6
1867	11 10	11 10	2 6 to 3 6	50 6 to 53 6
1868	16 7	16 7	4 3 to 5 7	53 0 to 70 0
1869	14 10	14 10	4 6 to 5 2	49 0 to 63 6
1870	15 8	15 8	3 5 to 4 10	54 6 to 73 6
1870	14 3	14 3	3 0 to 4 8	54 6 to 66 6

The average number of persons in Ireland receiving in-door relief on *Sabbath* days during the first quarter of 1870 was 55,867, against 59,130 for the corresponding period of 1869.

The average weekly number of persons receiving out-door relief during the quarter was 21,727, against 19,047 during the first quarter of 1869.

Of the persons receiving indoor relief during the first quarter of 1870, an average number of 497 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1869 the average weekly number was 489.

Quarterly
Reports.
First
Quarter.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, Dublin, during the first quarter of the year 1870, was 29.779 inches, against an average of 29.722 inches for the corresponding quarter of the preceding six years. The highest reading (30.583) was on the 19th January, at 9.30 P.M., wind S.W.; and the lowest (28.576) on the 8th of the same month, at 9.30 A.M., wind W.

The mean temperature of the air during the quarter was 40.9°, against an average of 41.2° for the corresponding period of the preceding six years; the maximum temperature (60.6°) was on the 31st March, and the minimum (23.6°) on the 25th January.

Rain or snow fell on 41 days during the quarter. The rain-fall measured only 5.133 inches, being less than that for the corresponding period of any of the six years 1864-9; the average amount for the first quarter of these years was 6.753 inches. The greatest monthly rain-fall during the quarter was in March, when 1.988 inches were registered.

Westerly winds were less prevalent than usual. It blew on 16 days from S.W., on 14 days from W., on 13 days from E., on 10 days from N.W., on 8 days from S.E., on 5 days from N.E., on 4 days each from N. and S., and the air was calm on as many as 16 days, at 9.30 A.M.

HEALTH OF THE PEOPLE.

The deaths registered during the quarter exceeded by 1,947 the number registered during the corresponding period of 1869. The increased mortality must be chiefly referred to a diminution in the temperature of 1.5°, and the prevalence of easterly winds. During the first three months of the year 1869 the wind was due east on 2 days, whereas during the quarter under consideration the wind blew from that point on 13 days.

The low temperature and harsh easterly winds proved very fatal to the aged, the very young, and all prone to pulmonary affections.

Deaths from bronchitis, pneumonia, and pulmonary consumption were very numerous throughout the country.

Influenza was very prevalent, and in many instances fatal.

Of the zymotic diseases, that which caused the greatest mortality was scarlet fever. Although this disease ceased to be epidemic in some of the districts in which it had committed great ravages during the preceding quarter, still scarlet fever prevailed to a considerable extent. In a few instances the attacks were of a mild character, while in many localities those attacked rapidly succumbed. More than one-fourth of the deaths that occurred in the Grey Abbey District, Newtownards Union, resulted from scarlet fever. Two deaths from scarlet fever were registered in the Dungiven District, Newtownlimavady Union; of these one proved fatal in 25, and another in 36 hours. Very few families of the poorer classes in Dungleigh District, Glenties Union, escaped; of the 34 deaths registered, 14 were caused by scarlet fever. Nearly one-third of the deaths registered in the Ferbane District, Parsonstown Union, were ascribed to scarlet fever. Many more reports from Registrars might be adduced in proof of the prevalence and fatality of this disease.

Quarterly
Reports.
—
First
Quarter.

Epidemics of measles were reported from various quarters. Several Registrars referred to the prevalence of whooping-cough, croup, and diphtheria.

The various types of continued fever seem to have been less prevalent than in the corresponding quarter of 1869.

The fatal effects (as before mentioned) of a low temperature on the aged was remarkable. The Registrars' notes showed the great mortality among the aged, and the extraordinary longevity of many. In the Crumlin District, Antrim, 3 of the persons who died were between 70 and 80, and 3 between 80 and 90 years of age. In Castlehayney District, out of the 60 deaths registered, 18 were between 60 and 70, 14 between 70 and 80, 10 between 80 and 90 years, and 1 person was a centenarian. In the Pomeroy District, Cookstown Union, the greater number of deaths recorded "occurred chiefly in old and infirm persons, ranging from 83 to 103 years."

Of the 63 deaths registered in Magherafelt District, the ages of 32 ranged from 70 to 96 years.

Sixteen of the 33 deaths registered in Donegal District were of old persons, varying from 60 to 100 years of age. Five of the persons whose deaths were registered in the Dungloe District, Glenties Union, were aged respectively 80, 84, 96, 98, and 103 years.

In the Dromore District, Omagh Union, 23 deaths occurred; 8 of these were of persons above the age of 80 years, and one that of a woman "who had reached the extraordinary age of 109 years." The Registrar adds, "I knew her well for a number of years, and from data she furnished to me at different times, I think her age is correctly stated. Her memory and intellect were nearly perfect until lately, and she was only confined to bed a few days before her death. In September last she walked from her residence to the dispensary, a distance of five miles, (unattended,) with the aid of a stick, to consult me for deafness she complained of."

In Ballymote District, Sligo Union, "12 of the deaths of persons registered were from old age, from 60 to 90, and one 112 years." The Registrar of Letterkenny District, Oughterard Union, states—"Of the total deaths (35) registered, 6 were of persons between 60 and 70, 4 between 70 and 80, 2 were 84, 1 was 96, and another 100 years." Nineteen deaths were registered in the Goleen District, Skull Union; "one person died aged 105, 2 aged 93, 1 aged 86, 1 aged 80, 1 aged 77, 1 aged 76, and 1 aged 70."

A few of the Registrars reported favourably of the sanitary condition of their districts, but many the reverse.

One death from locked-jaw occurred in the Cappoquin District, Lismore Union. The Registrar of Newry District, No. 2, made the following statement:—"Great difficulty in getting the better class of people to register according to the Registration Act."

NUMBER OF MARRIAGES, BIRTHS, AND DEATHS, REGISTERED IN EACH OF THE PROVINCES.

Marriages.—Grouping the Unions or Superintendent Registrars' Districts by Provinces, it will be observed from the following table that there were 4,569 marriages registered in the province of Munster during the first quarter of 1870, affording an annual ratio of 1 marriage in every 77 of the population; and in Connaught 2,583, affording a ratio of 1 in 81; whereas in Ulster the ratio was only 1 in 172; and in Leinster, 1 in 154. As has been remarked in former reports, the first quarter of the year is much the most favoured by the Roman Catholic population for marriage; this fact accounts for the great difference between the marriage-rates in Connaught and Munster, and those in Ulster and Leinster.

The following Table shows, by PROVINCES, the number of Marriages registered during the First quarter of the years 1868, 1869, and 1870, together with the annual ratio to the estimated Population.

Quarterly Reports.
First Quarter.

REGISTRATION PROVINCES.	MARRIAGES.					
	Quarter ending 31st March,					
	1868.		1869.		1870.	
	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.

TOTAL,	11,580	1 in 120	10,150	1 in 104	11,538	1 in 113

Births.—Of the 39,770 births registered in Ireland during the first quarter of 1870, 8,766 occurred in Leinster, affording a ratio of only 1 in 38 of the estimated population. In Munster the number registered was 11,149; in Ulster, 13,506; and in Connaught, 6,349, affording respectively an annual ratio of 1 in 32, 34, and 33 of the estimated population.

The following Table shows, by PROVINCES, the number of Births and Deaths registered during the First quarter of the years 1868, 1869, and 1870, together with the ratio to the estimated Population.

REGISTRATION PROVINCES.	BIRTHS.						DEATHS.					
	Quarter ending 31st March,						Quarter ending 31st March,					
	1868.		1869.		1870.		1868.		1869.		1870.	
	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.
LEINSTER,	8,766	1 in 41	8,766	1 in 39	8,766	1 in 38	7,267	1 in 47	7,045	1 in 43	7,782	1 in 42
MUNSTER,	20,863	34	10,781	33	11,149	32	6,551	67	4,629	58	7,911	59
ULSTER,	13,181	35	13,506	35	13,506	34	8,205	65	7,336	49	9,808	47
CONNAUGHT,	5,979	26	6,319	64	6,349	23	3,140	69	2,220	95	3,603	58
TOTAL,	38,777	36	39,381	35	39,770	34	25,214	55	26,287	52	28,234	48

Deaths.—Whilst the births registered in the province of Leinster, during the quarter ending 31st March, 1870, afforded the lowest ratio, the deaths registered give the highest rate of mortality, the number being 7,782, equal to an annual ratio of 1 in 42. In Munster the number registered was 7,911, yielding a ratio of 1 in 50; in Ulster, 9,808, or 1 in 47; and in Connaught, 3,603, or 1 in 58 of the estimated population.

Second Quarter.—April, May, June.

Second Quarter.

Marriages.—The number of marriages registered in Ireland during the second quarter of 1870 amounted to 5,247, equal to an annual ratio of 1 in every 258, or 388 per cent. of the estimated population. The average number registered in the corresponding period of the preceding five years was 5,519.

Quarterly
Reports.
Second
Quarter.

Births.—The births registered during the second quarter of 1870 amounted to 40,987—21,180 boys, and 19,807 girls—affording an annual ratio of 1 in every 33, or 3.03 per cent. of the estimated population. The average number of births registered during the corresponding quarter of the preceding five years was 39,565.

Deaths.—There were 23,310 deaths—11,789 males, and 11,521 females—registered during the quarter, affording an annual ratio of 1 in 58; or 1.72 per cent. of the estimated population. The average number registered during the second quarter of the previous five years was 23,885.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th June, 1870, amounted to 35,474—20,921 males and 14,553 females. The average number of emigrants during the corresponding quarter of the preceding five years was 33,609.

Estimated Decrease of the Population.—The number of births registered during the quarter ended 30th June, 1870, being 40,987, the deaths 23,310, and the number of emigrants 35,474 (according to the returns obtained by the enumerators at the several seaports), a decrease of 17,797 would, therefore, appear to have taken place in the population of Ireland during that period.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf for the quarter ending 30th June, 1870, was 6½d., which was also the average price for the corresponding period of 1869.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 15s. 2d. per cwt.; during the second quarter of 1869 it was 15s. 6d.; in the corresponding period of 1864 it was only 10s. 6d.

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 3s. 10d. to 5s. 1d. per cwt., against 3s. to 4s. 11d. in the corresponding quarter of the preceding year; the average prices for the second quarter of 1864 were only 2s. 11d. to 3s. 8d.

The average prices of beef at the Dublin Cattle market during the quarter were 54s. 6d. to 68s. 6d. per cwt., against 56s. 6d. to 74s. in the corresponding period of 1869; for the second quarter of 1864 the average prices were 53s. to 65s. 6d.

The following statement shows the average prices of the foregoing articles of food, in Dublin, during the second quarter of the years 1864–70:—

Years.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.	
	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.
1864 (2nd quarter),	6	19 6	2 11	to 3 8	33 0	to 65 6
1865	6	14 1	3 2	to 3 11	43 0	to 67 6
1866	6½	12 8	3 1	to 3 11	58 0	to 72 6
1867	8	16 5	3 8	to 6 0	53 0	to 70 6
1868	9	18 3	4 8	to 5 6	54 6	to 67 0
1869	6½	13 0	3 0	to 4 11	56 6	to 74 0
1870	6½	13 2	2 10	to 5 1	54 6	to 68 6

The average number of persons in Ireland receiving in-door relief on Saturdays during the second quarter of the year 1870 was 50,168, against 53,476 for the corresponding period of 1869.

The average weekly number of persons receiving out-door relief during the quarter was 21,614, against 17,978 during the second quarter of 1869.

Of the persons receiving in-door relief during the second quarter of 1870 an average number of 503 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1869 the average weekly number was 493.

THE WEATHER.

Quarterly
Reports.
Second
Quarter.

The mean height of the barometer during the second quarter of the year 1870 was 29.748 inches, against an average of 29.873 inches for the corresponding quarter of the preceding six years (1864-9). The highest reading (30.618 in.) was on the 6th June, at 9.30 A.M., the air being calm; and the lowest (28.969 in.) was on the 11th May, at 9.30 P.M., wind S.E.

The mean temperature of the air during the quarter was 52.5°, against an average of 53.0° for the corresponding quarter of the six years immediately preceding; the maximum temperature (74.4°) was on the 26th May, and the minimum (28.0°) on the 2nd April.

Rain fell on only 21 days during the quarter. The rain-fall measured only 2.550 inches, or less than half the average quantity (5.607) for the corresponding quarter of the preceding six years. The greatest monthly rain-fall during the quarter was in May, when 1.015 inches were registered.

The most prevalent wind during the quarter was the W., it having blown from that point on 27 days. It blew on 20 days from the S.W., on 17 days from the N.W., on 5 days each from E. and S.E., on 4 days each from N. and S., and on 9 days the air was calm, at 9.30 A.M.

HEALTH OF THE PEOPLE.

The deaths registered during the quarter ended June 30 were 838 less than were registered during the corresponding quarter of 1869. The mean temperature for the quarter was 1.5° higher than in the June quarter of 1869. The reports as to the state of the public health were generally favourable; epidemic disease was less prevalent. The deaths in early and advanced life contributed largely to the death register.

Of the zymotic diseases, scarlet fever was the most prevalent, and in many instances destroyed its victims in a few hours. In the Ormulin District, Antrim Union, "there was a violent outbreak of malignant scarlatina, which carried off 4 children in one family, in all of whom the disease ran its course in about 24 hours." In the Croagh District, Ballycastle Union, 6 of the 22 deaths registered were caused by scarlet fever. In No. 9 District, Belfast, 18 of the 41 deaths resulted from scarlet fever. Many other Registrars—especially in the North-Eastern Division—report upon the havoc committed by this pestilential scourge in their districts.

The Registrar of the Cough District, Cookstown Union, reports that—"During the months of April and May a sudden outburst of typhus fever sprang up in the Munterevlin Division; within an area of two miles 50 cases of low fever occurred, 10 proving fatal (some in hospital)." Deaths from fever, typhus and typhoid, occurred in the following districts:—Saintfield, Lisbarn Union; Rathmelton, Millford; Crossbane, Bailieborough; Celbridge; Coolattin and Clonegall, Shillelagh; Belturbet, Cavan; Banaha, Tipperary; Cappaghduff, Ballinroche; Newtownbarry, Enniscorthy; and Fethard No. 2 (Arthurstown), New Ross.

The Registrar of the Fethard No. 2 District relates an incident which shows how much the public health may be endangered by assemblages termed "wakes." In referring to a fatal case of typhus, the Registrar states that—"An old woman died suddenly of what was supposed to be paralysis. A wake, of course, followed, and within the ensuing three weeks 15 persons who had either been in contact with or attended the wake of this old woman, were stricken down by typhus fever. It appears that this old woman had given lodging to and washed the linen of a tramp who had been but lately discharged from a neighbouring fever hospital."

Quarterly
Reports.
—
Second
Quarter.

The Registrar of the Crossmaglen District, Castleblayney Union, reports—“Three cases of small-pox in persons fully grown up, who neglected to have vaccination performed; two of the parties contracted the disease from a brother who came from Scotland. The disease was mild in all the cases.” The Registrar at Queenstown, Cork, states, that “four cases of small-pox occurred in the district during the quarter. The disease was brought into Queenstown Harbour by a foreign vessel from Havanna, two of the men being ill with it before arrival. The third was attacked in the harbour, and the fourth case was that of the interpreter who attended on the vessel. The disease was of a mild type. All recovered, and had been previously vaccinated.” The provisions of the Compulsory Vaccination Act have been zealously carried out, and manifestly with the happiest results. The Medical Officer and public Vaccinator of the Coagh District, Cookstown Union, makes the following statement:—“Owing to fever so prevailing, I was obliged to perform house-to-house vaccination in the majority of the cases, as the alarm of the disease deterred parties from bringing their children to the accustomed vaccination depot.” The Registrar for Carlow says—“There has not been a single case of small-pox in this district for the last four years, and I find the people most anxious to comply with the provisions of the Compulsory Vaccination Act.”

One death was ascribed to purpura maligna, and another to purpura hæmorrhagica; the former occurred in No. 9 District, Cork, and the latter in the Killorglin District, Killarney Union.

A death from glanders took place in the Dawsonsgrove District, Cootehill Union. In Kilsal District, No. 1, a death from sunstroke was registered.

As before mentioned, the deaths of persons at an advanced age were very numerous. Twelve of the persons whose deaths were registered are stated to have attained the age of 100 years and upwards. In the Blackwatertown District, Armagh, the death of a female was registered at the very great age of 110 years. In Keady District, Armagh, of the 67 deaths registered “14 deaths occurred where the persons had passed 70 years of age, and 1 at the advanced age of 100 years.” Of the 16 deaths registered in Broughshane District, Ballymena, 10 were of persons 70 years and upwards, 2, 82 years, 1, 92 years, and 1 reached the remarkably advanced age of 104 years. In Tartaraghan District, Lurgan, there were 9 deaths from old age registered; the ages were respectively 102, 100, 90, 77, 76, 74, 74, 68, and 67. A man died in the Annacotty District, Limrick, at the age (as stated) of 112 years. Of the 13 deaths registered in the Kilsbannig District, Mallow, 4 “were caused by old age—1 that of a centenarian, a woman, whose husband is still living and exceeds that age by two or three years.” In Broadford District, Newcastle Union, there died a man whose registered age was 107 years. The Registrar makes the following statement:—“After making inquiry, I am enabled to state, that he was, up to a week before his death, a hale, robust old man, and of a most temperate manner of living, having never indulged in whisky drinking, &c. He apparently sank into the grave from a decay of nature alone, quietly and composed, with all his mental faculties entire.”

Referring to the Munterevlin Division of the Coagh District, Cookstown Union, where, as before stated, there was a sudden outburst of typhus fever, the Registrar states that—“The sanitary condition is very bad; cesspools abound, and, in addition to such, nuisances in other portions of the district exist.” The Registrar of Saintfield, Lisburn Union, referring to fever which broke out in a filthy, overcrowded house, gives the following painful description of the sanitary condition of Saintfield:—“From this house the disease spread throughout the street with great rapidity, owing to the want of sanitary arrangements, the filth and destitution of the inhabitants, and the refusal of many to be removed to hospital when attacked with the infectious disease. The street for the entire length is deficient in drainage, the inhabitants are destitute, many of the houses are almost uninhabitable, and the owners of many of them neglect or refuse to put them in proper order. There is an entire want of privies or any receptacles for human excrements.

Every kind of nuisances are deposited at the very doors. Either some more stringent sanitary laws than those already in existence are urgently required, or those sanitary laws that we now have on the statute books should be enforced by the proper authorities."

The Registrar of No. 2 District, Athlone, says that there is no improvement in the "sanitary condition of the town, some parts of which are without sewers, and in some of the places where sewers do exist the stench from some of them is intolerable."

The Registrar of No. 7 District, Cork, refers to "a good many cases of ague," and adds, "Sanitary condition of Upper Glasheen, near New Cemetery, very bad."

The Registrar of the Palmerston District, Dublin South, refers with satisfaction to the introduction of the Vartny water into his district, and other sanitary improvements.

The Registrars of the following districts, viz., Castlecomer, Ringville, Fethard No. 2 (New Ross Union), Kilmakevoge, Killeagh, and Cork No. 3, refer with satisfaction to the improvement in the health of the people, which they mainly attribute to sanitary improvements.

The Registrar of Castlerough No. 1, Belfast, says—"I cannot believe that all the deaths have been registered, nor do I know how the number could be correctly ascertained, unless a certificate were required from the Registrar before burial."

The Registrar of Cappagh, Tipperary, refers to "the perfect state registration of births and deaths has come to in this district within the past year. No objection is made by the parents or informants to present themselves for the purpose of registration as regards births and deaths."

NUMBER OF MARRIAGES, BIRTHS, AND DEATHS REGISTERED IN EACH OF THE PROVINCES.

Marriages.—The number of marriages registered in the Province of Leinster, during the quarter ended 30th June, 1870, affords an annual ratio of 1 in 304; in Ulster, the ratio was 1 in 227; in Munster, 1 in 331; and in Connaught, 1 in 369.

The following Table shows, by PROVINCES, the number of Marriages registered during the SECOND quarter of the years 1868, 1869, and 1870; together with the annual ratio to the estimated Population.

REGISTRATION PROVINCE.	MARRIAGES.					
	Quarter ending 30th June,					
	1868.		1869.		1870.	
	Number.	Ratio.	Number.	Ratio.	Number.	Ratio.

CONNAUGHT.	3,065	38	3,552	36	3,866	35	2,711	80	2,951	73	3,063	70
TOTAL.	40,631	34	39,439	35	40,987	33	22,507	62	24,138	56	23,318	58

Deaths.—The number of deaths registered in the province of Leinster during the second quarter of 1870 afforded an annual ratio of 1 in 53; in Ulster, the ratio was 1 in 57; in Munster 1 in 59; and in Connaught, 1 in 70 of the estimated population.

Third Quarter.—July, August, September.

Marriages.—The number of marriages registered in Ireland during the third quarter of 1870 amounted to 5,421, equal to an annual ratio of 1 in every 250, or 400 per cent. of the estimated population. The average number registered in the corresponding period of the preceding five years was 5,400.

Births.—There were 34,605 births registered in Ireland during the quarter ending 30th September, 1870—17,578 boys and 17,027 girls—representing an annual ratio of 1 in every 39·1, or 2·56 per cent. of the estimated population; the average number of births registered during the corresponding quarter of the preceding five years was 34,030.

Deaths.—The deaths registered in Ireland during the third quarter of the year 1870 amounted to 18,209—9,866 males and 8,343 females—affording an annual ratio of 1 in every 74·4, or 1·34 per cent. of the estimated population. The average number registered during the corresponding quarter of the previous five years was 18,530.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th September, 1870, amounted to 16,919—9,288 males and 7,631 females—the average number who emigrated during the corresponding quarter of the previous five years was 19,258.

Estimated Decrease of the Population.—The number of births registered during the quarter ended 30th September, 1870, being 34,605; the deaths 18,209; and the number of emigrants 16,919—(according to the returns obtained by the enumerators at the several seaports);—a decrease of 523 would, therefore, appear to have taken place in the population of Ireland during that period.

PRICES OF PROVISIONS, AND PAUPERISM.

Quarterly
Reports.
—
Third
Quarter.

The average price of Messrs. Manders & Co.'s 4-lb. loaf for the quarter ending 30th September, 1870, was 7½d., being one halfpenny dearer than it was during the corresponding period of 1869, and three halfpence dearer than in the third quarter of the year 1864.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 17s. 1d. per cwt.; in the third quarter of 1869 it was 16s. 10d.; while in the corresponding quarter of 1864 it was only 10s. 8d.

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 3s. 8d. to 5s. 1d. per cwt., against 4s. 10d. to 6s. 8d. in the corresponding period of the preceding year; the average prices for the third quarter of 1864 were only 2s. 7d. to 3s. 10d.

The average prices of beef at the Dublin Cattle market during the quarter were 54s. 6d. to 68s. 6d. per cwt., against 49s. 6d. to 68s. in the corresponding period of 1869; for the third quarter of 1864 the prices were 51s. to 62s. 6d.

The following statement shows the average prices of the foregoing articles of food in Dublin, during the third quarter of the years 1864-70:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.	
			s. d.	s. d.	s. d.	s. d.
1864 (3rd quarter).	6	10 8	2 7	to 2 10	51 6	to 62 6
1865	6	13 3	2 8	to 4 0	53 6	to 67 6
1866	6½	15 5	3 8	to 3 2	53 0	to 59 6
1867	6	12 4	3 3	to 5 1	50 0	to 65 6
1868	6	16 8	4 9	to 6 5	51 0	to 64 6
1869	7	16 10	4 16	to 6 8	49 6	to 65 0
1870	7½	17 1	3 8	to 5 1	54 6	to 68 0

The average number of persons in Ireland receiving in-door relief on Saturdays during the third quarter of the year 1870 was 43,751, against 46,248 for the corresponding period of 1869.

The average weekly number of persons receiving out-door relief during the quarter was 20,393, against 17,104 for the third quarter of 1869.

Of the persons receiving in-door relief during the third quarter of the year 1870, an average number of 491 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in External Hospitals; in the corresponding quarter of 1869 the average weekly number was 508.

THE WEATHER.

The mean height of the barometer during the third quarter of the year 1870 was 30.016 inches, against an average of 29.854 inches for the corresponding quarter of the preceding six years (1864-9); the highest reading (30.453 inches) was on the 30th September, at 3.30 P.M., wind S.E., and the lowest (29.193 inches) on the 9th of the same month, at 9.30 A.M., wind S.W.

The mean temperature of the air during the quarter was 58.7°, against an average of 58.9° for the corresponding quarter of the six years immediately preceding; the maximum temperature (86.9°) was on the 12th August, and the minimum (38.5°) on the 28th July.

Rain fell on 22 days during the quarter. The rain-fall measured 5.310 inches, against an average of 6.199 inches for the corresponding quarter of the years 1864-9. The greatest monthly rain-fall during the quarter was in September, when 2.530 inches, or nearly one-half of the total amount, were registered.

Westerly winds were, as usual, the most prevalent during the quarter, it having blown on 20 days from the W., on 19 days from the S.W., and on 8 days from the N.W. It blew on 10 days from the E., on 9 days from the N., on 6 days from the S.E., on 5 days from the S., and on 3 days from the N.E. The air was calm on 12 days during the quarter, at 9.30 A.M.

Quarterly
Reports.Third
Quarter.

HEALTH OF THE PEOPLE.

The state of the public health during the quarter ended September 30th, 1870, was very satisfactory. Zymotic diseases did not prevail to any great extent. The deaths from all causes were 288 less than in the corresponding quarter of the year 1869, and 321 less than the average number registered in the September quarter of the six years 1864-9.

Two deaths from small-pox occurred in No. 1 District, Belfast Union, and a like number in Lisburn.

Scarlet fever was epidemic in some districts, and carried off many victims, some with great rapidity, while some died from the subsequent inflammation of the kidneys and the consequent dropsy.

Of the 36 deaths registered in No. 9 District, Belfast, 8 were caused by scarlet fever. One hundred and thirteen deaths were registered in Lisburn, 33 of which resulted from scarlet fever. The Registrar reports: "The sanitary state of Lisburn is not so satisfactory as I could desire in several parts." One-fourth of the deaths registered in the Grey Abbey District, Newtownards Union, were ascribed to scarlet fever. In Dungiven District, Newtownhamilton Union, 7 of the 20 deaths registered were caused by scarlet fever. This disease contributed nearly one-half (15) of all (33) the deaths registered in the Coolattin and Clonegall District of the Shillelagh Union. Scarlet fever was also prevalent in Larne and Arklow.

Whooping-cough was very prevalent in some parts of the country, chiefly in the North-Eastern and South-Western Divisions. Owing, however, to the mildness of the season, this disease proved less fatal than when bronchitis and pneumonia (often the result of inclement seasons) ensue.

The Registrar of the Cushendall District, Ballycastle Union, met with 500 cases of this disease; the type must have been of a mild form, inasmuch as in only 4 instances did the disease prove fatal. In the Newtownhamilton District, Castleblayney Union, 6 of the 28 deaths registered were from whooping-cough. In Moneymore, Magherafelt Union, 33 deaths were registered, and 7 of these resulted from whooping-cough. Whooping-cough was very prevalent in Glinalongh, Monaghan Union, and caused 6 of the 28 deaths registered therein. In Queens-town, Cork, 10 deaths resulted from whooping-cough, and this disease was very prevalent in the district.

The country was singularly free from the various forms of continued fever. In some districts, however, fever appears to be endemic. The Registrar of Castle-island, Tralee Union, states that "Fever is scarcely ever out of the district."

Two fatal cases of diphtheria occurred in one family in the Randalstown District, Antrim, and 1 in Tartaraghan District, Lurgan.

Intestinal irritation, so general during the September quarter, is referred to in some of the Registrars' notes. The following reports may be cited:—The Registrar of Carlow observes that "Choleraic diarrhoea was very prevalent from the middle of August to the latter end of September; in many instances the disease reached the stage of collapse, and in 9 cases (those of children) it proved fatal." At Thurles "bowel disease" was very prevalent, and 7 deaths were caused by diarrhoea, and 6 by dysentery.

Two fatal cases of "Asiatic cholera" occurred in Clonmel, and 9 (principally children) died of diarrhoea. The Registrar of Fethard, No. 2, New Ross, states that "A very serious outbreak of choleraic diarrhoea occurred in July and August." In Killarney District, No. 1, there was "a rather severe epidemic of English cholera during the latter end of August and September. Two children died of infantile cholera." As so few of the Registrars make any reference to diarrhoea, it may be assumed that the disease did not prevail to any great extent.

The deaths attributed to old age were very many, and many of the persons had attained to years so advanced that their being recorded may provoke the incredulous to hostile criticism. The Cocketown Registrar states that 4 deaths

at the respective ages of 97, 94, 86, and 105 years occurred. The Registrar of Rathfriland, Newry, says—"Of the deaths (31) registered, 6 are above 70; 2 above 80; and 1, a woman, attained the age of 103 years; but what is still more remarkable, she was almost blind from 90 to 95, but at 95 she got her 'second sight,' which she retained along with her full mental faculties to the day of her death."

Six deaths were registered at Drumquin, Castlederg; 3 were of persons 60 years of age and upwards, 1 being registered as 104 years of age. Of the 28 deaths registered at Celbridge, 20 of the persons were aged between 60 and 80 years. A woman died at Castlemartyr, Middleton, whose age was stated to have been 102 years, and who "was only one week confined to bed." The Registrar of Boherboy, Kanturk, states that "7 persons died from bronchitis, 1 being 111 years of age, and 1 from 'old age' at 104 years." In the Kanturk District, where choleric diarrhoea prevailed, but 1 death ensued, "the subject having attained the ripe age of 100 years." One of the persons who died in the Carrigaline District, Kinsale, is stated to have been 103 years old. At Kinsale 6 of the persons who died during the quarter were registered as over 70 years, and 1 woman as 100 years old.

A child aged 7 years died in the Killaroran District, Mountbellew, from sunstroke.

In the Bannow District, Wexford, "there was 1 death registered from tetanus, a strong girl aged 16. The disease came on in consequence of a wetting, and lasted four days."

The provisions of the Compulsory Vaccination Act were admirably carried out through the country, and with results which the most sanguine could scarcely have anticipated. It must prove encouraging to find such testimony as that afforded by the Registrar of Crumlin, Antrim, in reference to the working of the Act. He says—"I am glad to say that parents pay good attention to the vaccination of their children, and I believe *all* the children born in the district are regularly vaccinated. I have not had a prosecution under the Compulsory Vaccination Act for several years past, as its provisions are complied with throughout the entire district; and the result is, that there has not been a single case of small-pox in the district since that Act came into operation, though there were several cases shortly before that time."

Though the healthfulness of the quarter must be mainly attributed to the fineness of the weather, we may refer to the improved sanitary condition of many parts of the country as an adjuvant. Many of the medical officers still complain of the utter neglect of all sanitary precautions in their districts. They, however, appear not to be aware of the ample powers afforded to health officers by the Sanitary Act of 1866; the provisions of which Act, if thoroughly carried out, would prove of inestimable benefit to the public at large.

NUMBER OF MARRIAGES, BIRTHS, AND DEATHS, REGISTERED IN EACH OF THE PROVINCES.

Marriages.—The number of marriages registered in the province of Leinster during the quarter ending 30th September, 1870, affords an annual ratio of 1 in 181; in Ulster, 1 in 236; in Munster, 1 in 284; and in Connaught, 1 in 523.

Quarterly Reports.
Third Quarter.

The following Table shows, by PROVINCES, the number of Marriages registered during the THIRD quarter of the years 1868, 1869, and 1870, together with the annual ratio to the estimated Population.

Deaths.—The deaths registered in the Province of Leinster during the quarter ended the 30th September, 1870, represent an annual ratio of 1 in 64; in Munster the ratio was 1 in 74; in Ulster, 1 in 76; and in Connaught, 1 in 94.

Fourth Quarter.—October, November, December.

Marriages.—There were 6,041 marriages registered in Ireland during the fourth quarter of 1870, a number affording an annual ratio of 1 in every 224, or .446 per cent. of the estimated population. The average number of marriages registered in the corresponding quarter of the previous five years was 6,371.

Births.—There were 34,484 births registered in Ireland during the quarter ending 31st December, 1870—17,610 boys and 16,874 girls—representing an annual ratio of 1 in every 39·3, or 2·55 per cent. of the estimated population; the average number of births registered during the corresponding quarter of the preceding five years was 33,270.

Quarterly
Reports.
—
Fourth
Quarter.

Deaths.—The deaths registered in Ireland during the fourth quarter of the year 1870 amounted to 20,709—10,400 males and 10,309 females—a number affording an annual ratio of 1 in every 65·4, or 1·53 per cent. of the estimated population. The average number registered during the corresponding quarter of the previous five years was 20,955.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland, during the quarter ended 31st December, 1870, amounted to 9,739—5,351 males and 4,388 females. The average number of emigrants during the fourth quarter of the preceding five years was 13,191.

Estimated Increase of the Population.—The number of births registered during the quarter ended 31st December, 1870, being 34,484; the deaths 20,709; and the number of emigrants 9,739 (according to the returns obtained by the enumerators at the several seaports); an increase of 4,036 would, therefore, appear to have taken place in the population of Ireland during that period.

PRICES OF PROVISIONS, AND PAUPERISM.

In the first seven weeks of the fourth quarter of 1870 the price of Messrs. Manders and Co.'s 4-lb. loaf was 7d.; during the remaining weeks the price was 7½d., the average price being one halfpenny higher than in the corresponding quarter of 1869, and three halfpence higher than in the fourth quarter of 1864.

The average price of oatmeal in Dublin for the quarter was 15s. 1d. per cwt., which was also the average for the corresponding quarter of 1869. In the fourth quarter of 1864 the average price was 10s. 10d. per cwt.

The average prices per cwt. of potatoes at the Dublin Potato market for the fourth quarter of 1870 were 2s. 10d. to 3s. 8d. In the fourth quarter of 1869 the average prices were 2s. 11d. to 4s., and in the corresponding quarter of 1864 they were 2s. 2d. to 3s. 4d.

The average prices of beef at the Dublin Cattle Market during the quarter were from 54s. to 70s. 6d. per cwt., against 52s. 6d. to 67s. in the corresponding quarter of 1869, and 49s. 6d. to 65s. 6d. in the fourth quarter of 1864.

The following statement shows the average prices of the above-mentioned articles of food in Dublin during the fourth quarter of the years 1864–70:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.	
			s. d.	s. d.	s. d.	s. d.
1864 (4th quarter).	8½	10 10	2 2	2 4	49 8	to 65 8
1865 "	7	15 1	2 8	2 8	50 6	to 63 6
1866 "	7½	15 11	3 1	4 11	48 6	to 62 9
1867 "	9	17 4	3 10	4 7	45 6	to 62 9
1868 "	7½	16 4	2 11	4 7	49 6	to 65 0
1869 "	6½	15 1	2 11	4 8	52 8	to 67 0
1870 "	7	15 1	2 10	3 8	54 0	to 70 8

The average number of persons in Ireland receiving in-door relief on Saturdays during the fourth quarter of 1870 was 46,674, against 49,617 for the corresponding period of 1869.

The average weekly number of persons receiving out-door relief during the quarter was 20,640, against 17,770 for the fourth quarter of 1869.

Quarterly
Reports.
—
Fourth
Quarter.

Of the persons receiving in-door relief during the fourth quarter of 1870, an average number of 505 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1869 the average weekly number was 508.

THE WEATHER.

The mean height of the barometer during the fourth quarter of the year 1870 was 29.797 inches, against an average of 29.804 inches for the corresponding quarter of the preceding six years (1864-9); the highest reading (30.606 inches) was on the 2nd December, at 9.30 A.M., wind S.E.; and the lowest (28.375 inches) was on the 14th of the same month, at 3.30 P.M., wind S.W.

The mean temperature of the air during the quarter (42.0°) was lower than that for the corresponding period of any of the six years immediately preceding. (The average mean for the fourth quarter of these years was 45.3° .) The maximum temperature (67.7°) was on the 2nd October, and the minimum (11.6°) on the 30th December.

Rain or snow fell on 23 days during the first two months of the quarter.* The rain-fall during these months measured 6.765 inches, of which 5.645 inches were registered in the month of October.

The west wind was by far the most prevalent during the quarter, it having blown on 27 days. The wind blew on 10 days from S.W., on 8 days from N.W., on 6 days each from E. and S.E., on 5 days from N., on 3 days from N.E., on 1 day from S., and the air was calm on as many as 26 days during the quarter, at 9.30 A.M.

HEALTH OF THE PEOPLE.

The number of deaths registered in the quarter ended December 31st, 1870, was 38 over the number in the corresponding quarter of 1869.

The mortality from affections of the respiratory organs was considerable. The mean temperature during the quarter was 2.6° lower than in the last quarter of the year preceding.

Diseases assuming an epidemic form were less prevalent than usual.

Of symptomatic diseases, scarlet fever was that which proved most fatal, especially in the North-Eastern Division. In the Lichburn District more than one-fourth of the deaths registered were caused by scarlet fever. Of the 76 deaths registered in Carlow more than one-fourth resulted from this disease.

Whooping-cough and croup were prevalent in several districts, and caused many deaths.

Very few of the Registrars referred to the prevalence of fever.

Ten Registrars reported the presence of small-pox in their districts, viz. :—The Registrar of Ballymoney states that "Four cases of small-pox occurred in this district. The first case was a girl, who brought the infection from Belfast, and died in the workhouse here. The other three cases were cousins of the girl, and from her took the infection; these cases have progressed favourably; each had been vaccinated. The poor patient from Belfast was not vaccinated." In Belfast, No. 1 District, 2 deaths from small-pox were registered; the Registrar reports—"I believe the deceased had not been vaccinated." In No. 4 District 5 deaths were caused by small-pox. The Registrar of this district was good enough to furnish the following statement of the deaths from small-pox :—

"Sir,—In reply, I beg to state that the first case, Sarah Dorman, aged 28, had no satisfactory evidence of successful vaccination. 2. Henry Miller, aged 28, had been vaccinated. 3. Patrick Muldoon, aged two months, was vaccinated, but exposed to infection in hospital, so that both diseases appeared at the same time. 4. William Waters, aged 49, had been vaccinated. 5. Charles Molloy, aged 21, had been vaccinated. These cases were all treated in hospital."

* The rain-gauge was out of order during December.

In No. 7 District, Belfast, 1 death from small-pox occurred in a woman who had not been vaccinated. In the Castlereagh District, No. 3, Belfast, the Registrar states that "One case of small-pox was treated." There were 5 cases, (none fatal) of small-pox in Pettigoe District, Donegal Union. The Registrar of the Portaferry District, Downpatrick, reports as follows:—"There was a case of modified small-pox during the quarter in Portaferry. The patient took ill in Belfast and came here. He had been successfully vaccinated when a child, and the disease was mild." A person from Belfast died from small-pox at Clonakilty. The Registrar of the Kilcatherine District, Castletown Union, reports that "A man, 59 years old, arrived in the district, from Swansea, with small-pox. He was sent to the workhouse infirmary immediately, where the case turned out favourably." In Kilkeel District, No. 1, a child, three months old, died "from neglect after a severe attack of varicella."

The provisions of the Compulsory Vaccination Act were zealously carried into operation throughout the country, and with the most beneficial results.

The cold season caused great mortality among the young and the aged; of the latter some were stated to have attained to extraordinary longevity. The Registrar of Celbridge mentions the death of a man aged 106. "He lived in the workhouse for the last four years; was a native of Maynooth, and was remarkable for his extreme good temper; was a labourer. He retained his mental faculties to the last." Two military pensioners who died in the Castletown Union had (as stated) attained the advanced ages respectively of 94 and 116 years. "The latter stated that he served at the battle of Banker's Hill as a drummer. He was in the possession of all his faculties until within a few weeks of his death, and was not confined to bed until the cold weather set in."

The reports of the sanitary condition of the various districts show an improvement as compared with former years.

NUMBER OF MARRIAGES, BIRTHS, AND DEATHS REGISTERED IN EACH OF THE PROVINCES.

Marriages.—The number of marriages registered in the province of Ulster during the fourth quarter of 1870 amounted to 2,505, a number representing an annual ratio of 1 in every 184 of the estimated population; in Leinster the number was 1,815, or 1 in 181; in Munster 1,171, or 1 in 301; and in Connaught 550, or only 1 in 382.

The following Table shows, by PROVINCES, the number of Marriages registered during the FOURTH quarter of the years 1868, 1869, and 1870, together with the annual ratio to the estimated Population represented by the number of Marriages registered:—

Deaths.—There were 6,042 deaths registered in the province of Leinster during the fourth quarter of 1870, the annual ratio afforded being 1 in 54; in Munster there were registered 5,449 deaths, or 1 in 65 of the estimated population; in Ulster, 8,727, or 1 in 69; and in Connaught, 2,491, or 1 in 84.

TOPOGRAPHICAL DESCRIPTION of the EIGHT DIVISIONS into which IRELAND has been divided in the foregoing TABLES.

No. I. The North-Eastern Division.—This division may be described by a line passing southward from Lough Foyle through the counties of Londonderry, Tyrone, and Armagh, to Lough Bawn, in the county of Monaghan, and thence eastward to Carlingford Lough; the north and east being on the seaboard.

No. II. The North-Western Division is bounded on the east by the division just described, from Lough Foyle to a point a little south of Six Mile Cross, in the county of Tyrone, and may be described by a line drawn thence S.W. through the county of Fermanagh to the south of Enniskillen, embracing that portion of the north-west angle of the county of Cavan belonging to the Enniskillen Union, into the county of Leitrim, crossing Lough Allen, thence into the county of Sligo, to a point situated to the southward of the town of Ballymote, and thence extending north to Ballysadare Bay; the remainder of the division is bounded by the sea. It contains Loughs Erne and Derg, and part of Lough Allen, and large portions of it are mountainous.

No. III. The Eastern Division is situated in the provinces of Leinster and Ulster; it extends along the Irish Sea and St. George's Channel, from Warren-

point, in the county of Down, to the south of Cahore Point, in the county of Wexford, stretching inland about twenty-five miles, and embracing the counties of Louth, Dublin, and Wicklow, and portions of the counties of Carlow, Cavan, Kildare, Meath, and Wexford; together with small portions of the counties of Armagh and Monaghan.

No. IV. The North Midland Division is situated in the provinces of Leinster, Ulster, and Connaught, and extends southward from its junction with the "North-Western" division near Six Mile Cross, in the county of Tyrone, to Tyrrellspass, in the county of Westmeath. Virginia, in the county of Cavan, is situated on its eastern border, and Tusk, in the county of Roscommon, on its western.

No. V. The South Midland Division situated in the provinces of Leinster and Munster, extends from the Hill of Down, in the county of Meath, southward to Borris, in the county of Carlow. Its southern boundary may be described by a line drawn thence to New Birmingham, in the county of Tipperary, and from that point south to Fethard, in the same county, thence westward to the northern base of the Galty Mountains, and in a north-westerly direction, to Pallagreen, in the county of Limerick. On the east it is bounded by the "Eastern" division, and on the west by the "Western" and the "South-Western" divisions.

No. VI. The Western Division.—This division extends southwards from Sligo and Killala Bays to the northern bank of the River Shannon, lying westward of Limerick; the extreme points, north and south, being Benwee Head, in the county of Mayo, and Loop Head, in the county of Clare, a distance in or about 120 miles, which, however, does not represent the extent of seaboard, the western coast being indented by numerous bays and inlets. This division has been extended much more inland than the eastern division, as from its exposure to the Atlantic Ocean, and the prevalence of westerly winds (which blow for nearly three-fourths of the year), the climate must be affected for a considerable distance inland; the Unions situated on the extreme east are Boyle, Castlereagh, Glennamaddy, Mountbellew, Ballinasloe, and Portlanna.

No. VII. The South-Eastern Division.—This division extends from its junction with the "Eastern" division southward of Cahore Point, in the county of Wexford, along the eastern and southern coasts to the east of Cork Harbour, and is bounded on the north by the South Midland division. It embraces the county of Waterford; nearly the whole of the county of Wexford; parts of the counties of Carlow, Kilkenny, and Tipperary; that portion of the county of Limerick (38,530 acres) comprised in the Mitchelstown Union, and a portion of the eastern side of Cork County.

No. VIII. The South-Western Division extends along the southern and western coasts from Cork Harbour to the river Shannon, and embraces the county of Kerry, nearly the whole of the counties of Cork and Limerick, and a small portion of the county of Clare, comprised in the Limerick Union.

POPULATION OF IRELAND (including Army, Navy, and Merchant Seamen on shore and in port)
estimated to the middle of each of the Years 1801 to 1870 :—

Middle of the Years	Estimated Population.			Middle of the Years	Estimated Population.			Middle of the Years	Estimated Population.

1824	7,076,149	3,471,699	3,604,450	1848	7,829,966	3,746,437	3,853,529				

NOTE.—This table has been constructed for the years 1801 to 1861.—By adopting the rates of increase of the male and female population between 1851 and 1861, as shown by the Irish Census Reports of 1861—the first complete Census of Ireland having been taken in 1851.

1862 to 1861.—By adopting the rate of increase between the population of 1861 and 1861, according to the Irish Census Report of 1861.

1862 to 1866.—By taking the English average birth-rate of 1 in 21, and death-rate of 1 in 46, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1867 to 1861.—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1861; the difference between the number arrived at by this computation and the actual number by the Census of 1861 was divided over the intervening years in proportion to the number of recorded deaths and the number of emigrants.

1862 to 1870.—The English birth and death rates, as above, were used, deducting the number of emigrants according to the returns obtained by the Registrar-General for Ireland, and apportioning the difference as explained for the last period.

ANNUAL ABSTRACTS

OF

MARRIAGES, BIRTHS, AND DEATHS.

1870.

ABSTRACT OF MARRIAGES.—Marriages registered in Ireland, pursuant to the

* The Registration Counties consist of groups of Superintendent Registrars' Districts or Poor Law Unions. Whenever a District or Union extends into more than one County, it is assigned wholly to that County in which the greater portion of the population is located; hence all the Registration Counties differ more or less from the Counties Proper.
† See note (1) page 32.

* Belfast, No. 10 District, was formed on the 1st January, 1870, by the severance of portions of Belfast, Nos. 4, 1, and 9 Districts. Some minor changes were made in the boundaries of most of the Belfast Districts during the year.

† For remainder of Belfast see next page.

NOTE.—The Registrars' Districts are sub-divisions of the Unions or Superintendent Registrars' Districts, and are identical with the Dispensary Districts of the same names, except in a few instances.

The letter W denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

Wherever the minus sign (—) is prefixed to the numbers given in the column headed "Excess of Births over Deaths," it denotes that the births in the Registrar's District, instead of exceeding the deaths, were, in fact, less than the deaths, to the extent stated.

IRELAND.—SUPPLEMENTARY TABLE of the

[In the foregoing Tables all the Diseases, either having a distinct character, or fatal to any considerable number of persons, are classified under 116 heads; some of which, however, include groups of very distinct diseases,—such as are fatal to only a few persons, or diseases which are often confounded with other diseases. The rule has been to refer the distinct diseases to heads under which the cases were so numerous that the additional numbers would not interfere with the calculated proportions. Where it is desired, partial corrections

* The Registration Counties consist of groups of Superintendent Registrar's Districts or Poor Law Unions. Whenever a District or Union extends into more than one County, it is assigned wholly to that County in which the greater portion of the population is located; hence all the Registration Counties differ more or less from the Civil Parishes.

LETTER to the REGISTRAR-GENERAL on the CAUSES of DEATH in IRELAND
from WILLIAM M. BURKE, ESQ., F.C.P.I.

YEAR 1870.

SIR,

I beg to bring under your consideration a few observations in reference to the assigned causes of the deaths *registered* during the year 1870.

The number of deaths *registered* does not truly represent the total of the deaths which actually occurred during the year. Many deaths escape the Registrars, owing, in some cases, to the extent of their districts, and also because the certificate of death from the Registrar is not required prior to the interment.

The great number of cases in which the cause of death is "uncertified" arises—first, from the fact that a great number of persons died without any medical attendant; and secondly, from the wording of the "Medical Certificate of Death," which makes the physician or surgeon not merely the certifier of the cause of death, but also the "*informant*" of the death having taken place.

The total deaths registered in the year 1870 amounted to 90,462, showing an increase of 869 as compared with the year 1869.

I. ZYMOTIC DISEASES.

To the class of diseases termed zymotic 14,548 deaths were referred; of these 7,258 were males and 7,290 females. In the year preceding the deaths from zymotic diseases amounted to 15,555; thus the mortality from these diseases shows a reduction of 1,007 deaths. Here it may be satisfactory to state that the mortality from zymotic diseases has considerably diminished since the year 1864, when the Registration Act came into operation. In that year the deaths referred to this class (which includes all preventable diseases) amounted to 19,064, showing a ratio of 34 deaths in every 10,000 of the estimated population; whereas in the year 1870 the ratio was only 27 in every 10,000.

The deaths from fever amounted to 2,985—1,579 males and 1,406 females. As compared with the year 1869 the mortality from fever shows a decrease of 414 deaths. 745 of the deaths from fever were returned under the head of typhus, 797 of typhoid or enteric, and 1,443 of simple continued fever or vaguely as from "fever."

Scarlet fever, which in the year 1869 proved fatal in 3,670 instances, in the year 1870 caused 2,978 deaths—1,528 males and 1,450 females—being 692 less than in 1869.

The deaths from whooping-cough were less by 120 than in the year preceding; 1,319 deaths (575 males and 744 females) were ascribed to this disease. Of those who died from whooping-cough 933 were infants under two years of age.

954 persons (469 males and 485 females) died from measles.

Croup was the cause of 1,225 deaths—661 males and 564 females. In the year preceding, croup caused 1,389 deaths.

Diphtheria contributed 188 deaths—55 less than in the year 1869. Quinsey was the cause of 293 deaths.

To diarrhoea 2,120 deaths (1,056 males and 1,064 females) were ascribed.

360 died from metria or child-bed fever, against 303 in the preceding year.

One female died from hydrophobia, and another from glanders.

The deaths from small-pox, which in the year 1869 amounted to 20, increased to 32; of these, 24 occurred in the North-Eastern Division.

II. CONSTITUTIONAL DISEASES.

The number of deaths tabulated under the head of constitutional diseases was 16,802—8,267 males and 8,535 females. Thirty-one persons in every 10,000 of the estimated population died from diseases termed constitutional.

Phthisis or pulmonary consumption numbered 9,989 victims—4,860 males and 5,129 females. In every 10,000 of the estimated population 18 persons died from pulmonary consumption.

Dropsy was the assigned cause of death in 1,336 instances—594 males and 742 females.

Cancer killed 1,792 persons—831 males and 961 females.

Metenteric disease caused 1,390 deaths.

Hydrocephalus or water on the brain was the cause of 1,157 deaths—660 males and 497 females.

912 deaths were ascribed to scrofula.

III. LOCAL DISEASES.

The number of deaths ascribed to local diseases was 32,377—17,598 males and 14,779 females.

Diseases affecting the nervous system resulted in 8,930 deaths—5,000 males and 3,930 females. Of the foregoing, 4,317 (2,418 males, 1,899 females) were referred to convulsions, 1,013 to apoplexy, 1,687 to paralysis, 586 to inflammation of the brain and its membranes, 338 to epilepsy, 195 to insanity, and 792 to unspecified diseases of the brain.

Diseases affecting the circulatory organs caused 3,835 deaths—2,004 males and 1,831 females. Of these, 100 (61 males and 39 females) resulted from pericarditis or inflammation of the heart's covering, 97 from aneurism (75 males and 22 females), and the remainder from heart disease unspecified, &c.

13,152 deaths—6,873 males and 6,279 females—were attributed to diseases of the respiratory system, exclusive of phthisis or pulmonary consumption. Of these, bronchitis was the cause of 9,625 deaths (4,816 males and 4,809 females), and pneumonia or inflammation of the lungs of 1,799—1,143 males and 656 females.

In 4,738 instances—2,547 males, 2,191 females—diseases of the digestive organs terminated in death. Of the foregoing, enteritis contributed 551 deaths,

gastritis 284, peritonitis 262, hernia 153, ileus 397, intussusception 49, ulceration of intestines 144, stricture of the intestines 49, fistula 9, disease of the stomach unspecified 1,035, hepatitis or inflammation of the liver 269, jaundice 179, liver disease unspecified 1,021, and disease of the spleen 19.

Diseases of the urinary organs caused 1,177 deaths (933 males and 244 females)—of these nephritis or Bright's disease caused 226 (147 males and 79 females), diabetes 113, ischuria 96 (91 males and 5 females), cystitis or inflammation of the bladder 78 (73 males and 5 females), nephritis or inflammation of the kidneys 73, stone in the bladder 20, and kidney disease unspecified 571.

136 deaths—8 males and 128 females—were referred to diseases of the generative organs; 181 to diseases of the locomotive organs; and 228 to diseases of the integumentary system.

IV. DEVELOPMENTAL DISEASES.

The deaths from diseases appertaining to the growth and decay of the body amounted to 21,351—9,303 males, 12,048 females. Of these 16,002 were ascribed to old age—6,828 males and 9,174 females. 87 men and 162 women were stated to have been centenarians.

214 children were prematurely born.

Cyanosis caused 11 deaths; one of these persons—a female—lived to the age of 25 years, 7 died during the first year, 1 was two years old, and 2 were between ten and fifteen years.

Spina bifida proved fatal in 23 instances, and other malformations in 39.

Teething was the cause assigned for 272 deaths.

The number of women who died during or after child-birth (exclusive of 360 whose deaths were referred to metritis) was 670.

V. VIOLENT DEATHS.

2,205 persons—1,510 males and 695 females—met with violent deaths. Of these 1,999 were accidental, viz.:—697 from fractures and contusions, 14 from gunshot wounds, 39 from cuts, stabs, &c., 526 from burns and scalds, 13 from poison, 431 from drowning, 85 from suffocation, and 194 from accidental causes unspecified.

The deaths from homicide numbered 93.

The deaths from suicide amounted to 80—55 males and 25 females.

In 30 instances of violent death there was no classification.

The cause of 423 sudden deaths was unascertained.

In 2,756 instances, or 1 in 33 of the total deaths, the cause of death was unspecified or ill-defined.

I am,
Sir,
Your obedient servant,
W. M. BURKE.

To
The Registrar-General.

COPY of CIRCULAR relating to REGISTRATION of MARRIAGES celebrated by
the ROMAN CATHOLIC CLERGY, 26 and 27 Vic., cap. 90.

General Register Office, Dublin,
31st December, 1863.

SIR,

I request you will furnish each Parish Priest within your District—who may apply to you for the same—with *six blank* Forms of Certificates of Marriage, which you will carefully take from the Certificate Book forwarded to you, and also with *six* of the printed Envelopes, addressed to "The Registrar of Births, Deaths, and Marriages."

By this course—which has been strongly recommended to me by many Dignitaries of the Roman Catholic Church, and approved of by the Law Officers of the Crown*—the convenience of the Catholic Population, especially those of the poorer classes, will be greatly promoted in regard to the Registration of their Marriages.

A *further supply* of Certificates *will be forwarded on your application*—from which *blank Forms* will be furnished by you, from time to time, to those Parish Priests within your District who may require them. You will request each Rev. Gentleman obtaining the Certificates, to give you a receipt for them (on the accompanying Forms), in order that you may be able to account to me for all the Certificates intrusted to your care; and you will furnish me, at the end of each month, with the Names and Addresses of those Clergymen to whom you supply them. You will observe they are on *Water-marked* paper, with the words "Certificate of Marriage" printed thereon.

I beg to say that I feel assured you will discharge the duties of your office with zeal, discretion, and courtesy, and thus largely contribute to the success of the very Important Measures, in the carrying out of which you have so readily undertaken to assist by accepting the office of Registrar.

I am, Sir,

Your obedient Servant,

WILLIAM DONNELLY,
Registrar-General.

To the

Registrar of Births, Deaths, and Marriages,
District of —————

* The Right Honorable Thomas O'Hagan, Attorney-General—now Lord Chancellor; and James A. Lawson, Esq., Solicitor-General—now a Judge of the Common Pleas.

INDEX OF SUPERINTENDENT REGISTRARS' DISTRICTS.

[The following Index furnishes a reference to the Number of each Superintendent Registrar's District in the Topographical Arrangement adopted in the Tables of Abstracts contained in the Report, in which the numbers run consecutively from 1 to 163.*]
